

North Maharashtra University, Jalgaon
Faculty of Science and Technology
BACHELOR OF COMPUTER APPLICATIONS (BCA)
BCA 607 - Project Report & Viva
w.e.f. 2019-20
Total Lectures: 60
[Total Marks: 60 External + 40 Internal =100 Marks]

Objective: – To prepare students to use applications of the theory and practical learned during the course.

PROJECT WORK

1. Each student shall have to carry out the project work based on System Development which may include Application Program, Database Management System, Web Based Application, Smart phone Application, System Tools, Network System Application, etc. A project may be carried out at any outside organization or on a sub system of an organization.
2. The project work should be carried out individually. No group work is allowed in the Project work. The project title should not be repeated.
3. The topic of the project should be decided with the consultation & guidance of an internal guide-teacher of the institute/college. The project should be necessarily innovative and problem solving. No teacher shall be entrusted with more than 15 students for guidance and supervision.
4. The student should clearly mention the need of project , database(s), files required for the project, DFD , Normalization, ERD, software used for the project, reasons for selection of that software, inputs required, outputs produced etc.
5. The application should be menu driven and should provide the facilities of storage of data, modifications in existing data, deletion of unwanted data, and viewing of data.
6. The student has to write a report based on the actual work undertaken during the vacations at the specific selected enterprise/ organization or sub system and get it certified by the concerned teacher that the Project report has been satisfactorily completed and submit TWO typed copies of the same to the Head / Director of the institute /Principal of the college.
7. One copy of the report submitted by the student shall be forwarded to the University by the Institute.
8. No student will be permitted to appear for Viva-Voce examinations, unless and until the project report is submitted within the stipulated time.

CHAPTER 8

Conclusion

Conclusion of the Project mahamudan portal:

- Summarize the key objectives and goals of the project: Briefly reiterate the main objectives and goals of the portal, highlighting how they have been achieved or how progress has been made towards achieving them.
- Highlight the key features and functionalities of the portal: Recap the main features and functionalities of the portal and how they have helped to improve the user experience or provide value to users.
- Discuss the impact of the portal: Describe how the portal has impacted the target audience, the industry, or the wider community. This could include any positive outcomes or benefits resulting from the portal, such as increased efficiency, improved access to services, or cost savings.
- Identify areas for future development: Highlight any areas where the portal could be improved or enhanced in the future to provide even more value to users. This could include adding new features, improving existing functionalities, or exploring new markets.
- Acknowledge the contributions of the team: Thank and acknowledge the efforts of the team members and stakeholders who contributed to the success of the project. This could include developers, designers, project managers, or other individuals who played a key role in the project's success.
- End with a call to action: End the conclusion with a call to action, encouraging readers to visit the portal, engage with the platform, or provide feedback on their experience.
