Faculty of Science and Technology  
**BACHELOR OF COMPUTER APPLICATIONS (BCA)**  
**BCA 607 - Project Report & Viva**  
w.e.f. 2019-20  
Total Lectures: 60  
[Total Marks: 60 External + 40 Internal =100 Marks]

**Objective: – To prepare students to use applications of the theory and practical learned during the course.**

### **PROJECT WORK**

1. Each student shall have to carry out the project work based on System Development which may include Application Program, Database Management System, Web Based Application, Smart phone Application, System Tools, Network System Application, etc. A project may be carried out at any outside organization or on a sub system of an organization.
2. The project work should be carried out individually. No group work is allowed in the Project work. The project title should not be repeated.
3. The topic of the project should be decided with the consultation & guidance of an internal guide-teacher of the institute/college. The project should be necessarily innovative and problem solving. No teacher shall be entrusted with more than 15 students for guidance and supervision.
4. The student should clearly mention the need of project , database(s), files required for the project, DFD , Normalization, ERD, software used for the project, reasons for selection of that software, inputs required, outputs produced etc.
5. The application should be menu driven and should provide the facilities of storage of data, modifications in existing data, deletion of unwanted data, and viewing of data.
6. The student has to write a report based on the actual work undertaken during the vacations at the specific selected enterprise/ organization or sub system and get it certified by the concerned teacher that the Project report has been satisfactorily completed and submit TWO typed copies of the same to the Head / Director of the institute /Principal of the college.
7. One copy of the report submitted by the student shall be forwarded to the University by the Institute.
8. No student will be permitted to appear for Viva-Voce examinations, unless and until the project report is submitted within the stipulated time.

## Conclusions

This project **“WINGZZ (Business Listing Website for Women Entrepreneurs)”** an offline system that covered all basic facilities including Contact Us, Services and Features. From this project we can achieve the following result.

1. Provides all the basic facilities for visitors.
2. We designed contact us facility in this website, visitors can directly contact us from phone or email.
3. In this web portal women entrepreneurs can register their businesses.
4. We provide business contact, details about the business like photos and digital marketing services and achieved business goals by using original ideas with proven practices on time and within the budget.

This web portal has been developed as per the requirement specification. It has been developed using HTML, CSS, PHP, Apache, MYSQL compact, the complete system is thoroughly tested with the availability of data and throughput report which are prepared manually.

Design procedure and output reports are presented in this project report. This design is easy to understand that any new visitors can be interact or use easily.
