Guidelines for Dissertation -:

The aim of the dissertation is to provide you with an opportunity to further your intellectual and personal development in your chosen field by undertaking a significant practical unit of activity, having an educational value at a level commensurate with the award of your degree

The dissertation can be defined as a scholarly inquiry into a problem or issues, involving a systematic approach to gathering and analysis of information / data, leading to production of a structured report.

- It is usual to give you some discretion in the choice of topic for the dissertation and the approach to be adopted. You will need to ensure that your dissertation is related to your field of specialization and region wise.
- The student will submit a list of his/her three most preferred topics in the order of preference by the third week of the fourth semester to the concern teacher of the parent department.
- All post graduate teachers in the Department will be guides for the project component. All teachers shall have equal number of students allotted for the dissertation.

- The marks given by the members of the evaluation committee will be averaged in each head and the total marks decided by totalling the averages under the three heads.
- Dissertation Submission The student will submit a bound hard copy of the dissertation to the Department by the end of the fourth semester.
- The final dissertation will be typed in one and a half spacing on one side of the paper. The APA style shall be followed for the writing of dissertation.

Guidelines for the Assessment of the Dissertation

While evaluating the dissertation, faculty guide will consider the following aspects:

1. Has the student made a clear statement of the objective or objective(s)?
2. If there is more than one objective, do these constitute parts of a whole?
3. Has the student developed an appropriate analytical framework for addressing the problem?
4. Has the student collected information / data suitable to the frameworks?
5. Are the techniques employed by the student to analyse the data / information appropriate? and relevant?
6. Has the student succeeded in drawing conclusion form the analysis?
7. Do the conclusions relate well to the objectives of the project?
8. Has the student been regular in his work?
9. Layout of the written report.

Evaluation of Project Report

A. Internal Evaluation of Project Report – 40 marks

- Internal evaluation will be done by the concerned teacher or guide.
- There will be 40 marks for Internal assessment.
- Division of marks for project report will be as follows and will be based on suitability and appropriateness of the report with respect to:

Regularity and Punctuality	Data Collection	Result, Interpretation	Summary, Conclusion
10	10	10	10

B. External Evaluation Report of Project Report – 60 marks

- External Examination will be conducted by two examiners (one of whom will be preferably Internal and one External)
- Each batch will consist of only 08 students
- Duration of examination for each batch will be 3 hours.

- Marks for Project Report, Presentation & Viva-voce will be given by both examiners and the average of the same will be considered as final marks of the candidate.

Report Writing	Presentation (PPT)	Viva-Voce
20	20	20

General Notes:

1. Each batch of project should consist of maximum 08 students.
2. A separate batch will be formed if this number exceeds even by one.
3. Workload for each batch will be equivalent to 8 lecture periods.
4. Students should select a problem in consultation with teacher concerned.
