Industrial Expert Lecture Report (2023-24)

Name of the Industry Visited : S. Heatwell, Jalgaon

Date of Visit : 16th February, 2024

Number of Beneficiaries : 15 Students

Department of Physics organized lecture of an industrial expert at S. Heatwell, MIDC, Jalgaon on 16th February, 2024. This visit was organised under the MoU with S. Heatwell, Jalgaon.

Industry Manager Shri. Shekhar kinhalkar gave the detailed information of the design, engineering, manufacturing of various types of industrial thermocouples and heaters. He explained that the overall range for all thermocouple types is -200°C to $+1800^{\circ}\text{C}$.

He also explained that there are many factors to consider when selecting a thermocouple type for an application. The life of a thermocouple is also something to consider, particularly at extreme temperatures and it may be worth considering Infrared Pyrometers instead which can measure temperature from outside the process.

He answered the queries of students. Total 15 Students of S.Y.B.Sc. and T.Y.B.Sc. (Physics) have taken active participation in this lecture along with teachers.
